In my current and future research, I am interested in developing and applying techniques to track the long-range movements of animals, leveraging comparative approaches to understand various aspects of migratory behaviour, and contributing to the conservation of migratory insects. I am also interested in clarifying the genetic basis of migration and exploring how environmental conditions influence migratory and dispersal behaviour.

EDUCATION

PhD, University of Ottawa, Biology *2018-2024*

- Thesis topic: Advancements in isotopic geolocation tools for insect migration research
  - Nominated for a thesis prize
  - Advisors: Profs Clément Bataille and Heather Kharouba
  - Fast-track from MSc Earth Sciences

BSc, University of British Columbia**,** Environmental Sciences *2011- 2015*

- International exchange to the University of New South Wales *2013*
- 1st and 2nd year at the University of the Fraser Valley *2008-2010*

RECOGNITION

- Mitacs Globalink Research Award *2023*
- Ontario Graduate Scholarship *2022-2023*
- Best graduate talk, 18th Annual Ottawa-Carleton Institute of Biology Symposium *2021*
- Ontario Graduate Scholarship *2021-2022*
- Excellence Scholarship-Doctorate, University of Ottawa *2020-2023*
- ORIGIN Graduate Fellowship 2021, University of Utah *2020*
- Queen Elizabeth II Graduate Scholarship in Science and Technology *2020-2021*
- Danks Scholarship, Entomological Society of Canada *2020*
- Admission Scholarship-Doctorate, University of Ottawa *2019-2020*
- Admission Scholarship-Master's, University of Ottawa *2018-2019*

FUNDING

- BayCenSI Stepping Stones funding. Bayreuth Center for Stable Isotope Research in Ecology and Biogeochemistry. "Exploring the migratory patterns of the pioneer caper white (*Belenois aurota*) and the African migrant (*Catopsilia florella*) with stable isotopes." **Recipient** *2024*

Megan S. Reich

EMPLOYMENT

Academic Work Experience

University of Ottawa

Postdoctoral Fellow *Jan/24-present*

- Collaboratively work with the Canadian Forestry Service to use isotope geolocation to understand dispersal movements of an economically important forestry pest, eastern spruce budworm, *Choristoneura fumiferana*
- Develop and apply sulfur, strontium, hydrogen, and lead isotopes for insect geolocation
- Mentor students in experimental design and laboratory protocols

Teaching Assistant (GEO5191 - Global Biogeochemical Cycles) *Sept/22-Dec/22*

- Marked laboratory reports on the carbon cycle based on box modelling with Insight Maker

Greenhouse staff *Jan/21-Aug/22*

- Watering and monitoring of plants in the Department of Biology's research greenhouse

Teaching Assistant (BIO3333 - Entomology) *Jan/22-Apr/22*

- Guided students through the identification of insect families and the use of dichotomous keys
- Led students through experiments with bean beetles, Manduca sexta, and a cockroach dissection
- Marked lab reports and provided feedback

Teaching Assistant (GEO1111 - Introduction to Earth Systems) *Jan/19-Apr/19*

- Invigilated and marked exams
- Held office hours and answered student's questions

Teaching Assistant (EVS3101 - Environmental Issues) *Sept/18-Dec/18*

- Guided students with the development of group projects on environmental issues
- Marked exams and provided feedback on presentations

University of Guelph *Apr/18-June/18*

Graduate Research Assistant

- Fieldwork for graduate thesis
- Collected over 155 *Asclepias* spp. (milkweed) samples from 22 states in the eastern USA
- Created a volunteer network to assist with sample collection

University of British Columbia – Srivastava Lab *Aug/15-Dec/15*

Field Assistant

- Sampled aquatic insect ecosystems within bromeliads along an elevation gradient in Monteverde, Costa Rica to explore the potential effects of climate change on this system
- Assisted in carrying out ecological and physiological experiments
- Created a field guide consisting of sketched and photographed pictures of aquatic larvae

Non-academic Work Experience

Canadian Museum of Nature - Research Collection *May/19-Aug/19*

Assistant

- Museum curation in the entomological collection (beetles)
- Specimen preparation and collection organization and labelling

Fraser Riverkeeper/Swim Drink Fish Canada *Nov/17-Mar/18*

Water Literacy Coordinator

- Organized the 11th Annual Fraser River Clean-up, where 650 volunteers collected 12 tonnes of garbage from the riverbank
- Delivered water literacy presentations to schools and community groups to encourage sustainable use of our local waterbodies
- Managed social media

PhytoInformatix *May/17-Sept/17*
Research Assistant
- Performed pesticide screening trials and efficacy assessments in an agricultural setting

Projects Abroad - Himalayan Mountain Conservation Project *Mar/16-Feb/17*
Field Coordinator in Nepal
- Led international volunteers in biological surveys of butterflies, birds, primates, mammals, and herpetological species using non-invasive methods (visual surveys and camera traps)
- Analyzed survey data and wrote monthly reports, responsible for data management
- Conducted volunteer feedback interviews, reported incidents, and created action plans

British Columbia Tree Fruits Cooperative *May/15-Aug/15*
Survey Technician
- Evaluated 110,000 cherries for insect infestation using a dissecting microscope in order to fulfill the Government of Japan's survey requirements
- Extracted and assessed the quantity of plant-parasitic nematodes present in soil samples

Federal Government of Canada – Internal Integrity and Security *Sept/14-Apr/15*
Marketing & Communications Strategy Agent (FSWEP Student)
- Facilitated Security Awareness Week to increase security awareness of employees
- Organized an in-person focus session of managers and team leaders that reviewed policies and procedures to generate constructive feedback
- Used feedback to generate recommendations and create new user guides

E.S. Cropconsult Ltd.
IPM Field Technician *Apr/14-Aug/14*
- Scouted and recorded cranberry pests as part of an integrated pest management monitoring program

---

ACTIVITIES

Policy

Trilateral Scientific Group Meeting on the Monarch Butterfly, Mexico City, Mexico
- Invited as part of a Canadian delegation to Mexico to develop a science-based action plan for the recovery of the monarch butterfly, based on my expertise with respect to migration ecology *Feb/24*

Leadership and Organization

- Biology Graduate Student Association – Executive Member Councillor *May/20-April/22*
- Graduate Students Association des Étudiant.e.s Diplômé.e.s (GSAÉD)–Director *May/20- April/22*
- Informal Seminar Without A Name (ISWAN) – Organizer *Sept/20-April/21*
- GSAÉD Social Committee – Member *May/20-Apr/21*
- UBC Environmental Sciences Student Association – Executive Member *2011-2014*

Supervisory Activities

- Mentorship of high school student: Eliana Chiariello (Fox Lane High School) *2023-2024*
- Mentorship of undergraduate: Eve Lindroos (University of Ottawa) *2021-2022*
- Mentorship of undergraduate: Sana Ghouri (University of Ottawa) *2020-2021*
- Mentorship of undergraduate: Mira Kindra (University of Ottawa) *2019-2020*

Outreach

- Guest speaker to Lac La Hache Elementary School, Grade 1-2 — *Jun/22 & May/23*
- Guest speaker to Scriber Lake High School — *Feb/21 & Apr/21*

Skype a Scientist (virtual classroom visits)

- University of Houston, PED331- Science Teaching — *Sep/22*
- University of Houston, EED3315-Effective Teaching Strategies: Science Education — *Sep/22*
- Amana Academy, Grade 3 — *Oct/21*

Non-academic Volunteer Experience

Canadian Museum of Nature - Entomological Research Collection (*5 hours per week)* — *2018-2020*

- Mount and label specimens, organize the collection, and perform other curatorial tasks

Girl Guides of Canada

- Unit Leader for the 16th Guides Ottawa (*3 hours per week*) — *2018-2021*
  - Mentor girls aged 9-11 in games and activities to develop their leadership skills
  - Organize camping trips and community engagement activities
- Unit Leader for the 43rd Guides Vancouver (*3 hours per week*) — *2011-2015*
  - Managed unit finances

Professional Development

- Bioinformatics: Analysis of RNA-Sequencing Data, Compute Ontario — *2024*
- Introduction to High-Performance Computing, IT Solutions, University of Ottawa — *2024*
- Introduction to the UNIX/LINUX Commandline, Lund University — *2020*
- Python Workshop, IT Solutions, University of Ottawa — *2020*
- Programming in R Workshop, IT Solutions, University of Ottawa — *2020*
- Spill Response Training, University of Ottawa — *2019*
- Teaching Assistants Training Day, University of Ottawa — *2018, 2019*
- WHMIS 2015 - for laboratory workers — *2018*
- Grad Talk - Thesis Proposal Workshop, University of Ottawa — *2018*
- Field Technician, Canadian Aquatic Biomonitoring Network (CABIN) — *2017*

Skills

- Software: R, ArcGIS
- Analytical: Isotope Mass Spectrometry (MC-ICP-MS, ICP-MS)
- Field: Wilderness & Remote First Aid & CPR/AED Level C, OFA Level 1

MEMBERSHIPS

- British Ecological Society – Student Member *2022-2024*
- Earth Science Women's Network *2022-2024*
- Entomological Society of Ontario - Student Member *2018-2024*
- Entomological Society of Canada - Student Member *2015-2022*
- Entomological Society of British Columbia - Student Member *2015-2019, 2022*
- Ecological Society of America - Student Member *2020*
- Entomological Society of America - Student Member *2016-2018, 2020*
